

November 30, 2005

Ms. Mary L. Cottrell, Secretary
Department of Telecommunications and Energy
One South Station, 2nd Floor
Boston, MA 02110

Re: Fitchburg Gas and Electric Light Company Semi-Annual
Report in D.T.E. 03-87

Dear Secretary Cottrell:

Fitchburg Gas and Electric Light Company d/b/a Unitil ("Unitil") submits the attached semi-annual report regarding the status of "double poles" to the Department of Telecommunications and Energy ("Department"). Enclosed for filing are the original and nine (9) copies of this status report.

In its previous report filed with the Department on July 1, 2005, Unitil provided its estimate of December 31, 2005, as a projected deadline for the removal of all backlogged double poles. According to the PLM reports, however, Unitil currently has a total of 94 backlogged double poles: 1 in Ashby; 50 in Fitchburg; 4 in Lunenburg and 39 in Townsend. Of these 94 backlogged poles, Unitil is awaiting transfers from Verizon on 81; from Comcast on 3; and from the local towns' fire departments on 2. The remaining 7 poles are awaiting remediation by Unitil. Unitil has discussed the pending transfers with representatives of Verizon. Since Unitil does not have control over the transfer activity of attachées to its poles, compliance with the projected deadline may not be possible.

Unitil remains committed to eliminating all backlogged poles as soon as possible, and will continue to provide updates of its progress towards this goal to the Department.

Please do not hesitate to contact me if you have any questions or concerns regarding this matter.

Sincerely,

Gary Epler

Gary Epler

NOTES: The Summary Reports in Attachment A provide all backlog and new double poles recorded in the Pole Lifecycle Management (PLM) database. Backlog double poles are those with a set date on or before January 31, 2004, and new double poles are those with a set date after January 31, 2004. Municipal electric companies that are sole and joint pole owners are included in these Reports.

The following Column Definitions apply to this Summary Report:

CITY OR TOWN

City or town in which backlog double poles are located.

POLE OWNERSHIP TYPE

"JO" or "SO" to indicate joint or sole pole ownership.

POLE OWNER 1

Sole owner or first joint owner.

POLE OWNER 2

Second joint owner (where JO).

TOTAL BACKLOG DOUBLE POLES

Initial total of backlog double poles as of January 31, 2004.

REMAINING BACKLOG DOUBLE POLES

Backlog double poles remaining at end of reporting period.

REMOVED BACKLOG DOUBLE POLES

Total backlog double poles removed by end of reporting period.

% BACKLOG DOUBLE POLES REMOVED

Percent of total backlog double poles removed by end of reporting period.

D.T.E. 03-97 DOUBLE POLE STATUS GRID
NEW DOUBLE POLE PROGRESS REPORT
 Reporting Period: May 1, 2005 to October 31, 2005

CITY OR TOWN	POLE LOCATION (STREET)	PLM ID	TELEPHONE COMPANY ROUTE NUMBER	TELEPHONE COMPANY POLE NUMBER	ELECTRIC COMPANY ROUTE NUMBER	ELECTRIC COMPANY POLE NUMBER	POLE OWNER 1	POLE OWNER 2	DATE INSTALLED	DATE REMOVED	NEW DOUBLE POLES REMAINING > 90 DAYS (YES/NO)	BALL IN COURT
--------------	---------------------------	--------	-----------------------------------	----------------------------------	----------------------------------	---------------------------------	--------------	--------------	----------------	--------------	--	---------------

Municipal electric companies that are sole and joint pole owners are included in this Report.
 In addition, see "Notes" Sections for Backlog and New Double Pole Summary Reports in Attachment A for applicable Column Definitions. This Progress Report also contains the location (street address, city or town)
 for each double pole identified, as well as the following identification numbers for each double pole: PLM ID; Telephone Company Route and Pole Numbers; and Electric Company Route and Pole Numbers.
